### Changes in Examination Methods.

The Special Committee of the Board of Education has presented to that body a plan for radical changes in the public school system of examination and marking.

By this proposed scheme it is provided that before June 1, 1889, the teachers in the city

to be considered as capable of conducting their classes without supervision and not subject to the present system of examination. The standard teachers are to receive frequent visitations, supervision and assistance from their principals and the City Superintendent, and detailed reports are to be made to the Superintendent of work done, methods em-ployed and results accomplished.

No disagreeable questions are asked, no humiliating references are made to the poverty of the supplicant. Only kindness and reassuring words are offered.

On the other hand, should it be inconvenient to care for the patient at home, or should there be any other reason why the patient would be better off if removed to a hospital, all that is necessary is to take him to either one of the hospitals not private and he will be welcomed and cared for.

### PUNCTUAL MAYOR GRANT.

He Beats His Staff of Assistants in Beginning His Day at the Desk.

Mayor Grant is a remarkable contrast to his predecessor in office in that he is one of the first of the city's officials to arrive at the City Hall in the morning. It is not an uncommon thing for 9 o'clock

to find him seated at his desk, busily engrossed by the business of the day.

The members of his personal staff are aware of this peculiarity of the young and energetic Mayor, and they make desperate, but not always successful, efforts to reach their desks before his arrival.

JOHN FAIRFAX M'LAUGHLIN WANTS \$20,000

Mr. Kelly's Political Speeches-Was It for Assisting to Write Mr. Kelly's Book? The widow of the late Tammany Hall chief, John Kelly, as sole executrix of his will, has been sued for \$20,000 by J. Fairfax Mc-Laughlin, Clerk of the Surrogate's Court. Mr. McLaughlin was Mr. Kelly's private secretary, and his claim is for literary

services rendered the dead chieftain. The special nature of his claims could not be learned by the Evening World reporter. Mr. McLaughlin refused absolutely to say one word regarding the matter, and his attorner, Peter B. Olney, was equally reticent.

Recorder Smyth, who is Mrs. Kelly's counsel in the case, says there is a bill of particulars, but thought it ill-advised to reveal its contents at present.

The prevailing opinion is that Mr. Mc-Laughlin claims to have been the author of most of Mr. Kelly's speeches; that he drafted them, and if satisfactory to Mr. Kelly they were accepted and read from manuscript by Mr. Kelly.

Friends of the dead leader resent the imputation that Mr. Kelly was incapable of writing his own speeches, as does also his widow.

"Life of John Kelly," of which Mr. Mc-Laughlin was the author.
This book was issued and circulated by Mr. Kelly on the occasion of his celebrated revolt against Gov. Lucius Robinson in 1879.
Mr. McLaughlin's course in bringing this action to recover \$20,000 from the estate of Mr. Kelly, is severely commented on by friends of the dead man.
"Why," said one, "John Kelly made Fairfax McLaughlin all that he is. He was mported to New York from Maryland. Kelly took him up and made him. He was Deputy Register under John Reilly and Deputy County Clerk under Henry Gumbleton, and now he holds a \$3,000 position in the Surrogate's office, all because of Kelly's friendship."

The action will come up for trial in Superior Court next Tuesday.
